

✱ Equipping & Empowering Older Generations ✱

GRANDPARENTING FOR FAITH

INSPIRING AND GIVING PURPOSE TO GRANDPARENT GENERATIONS

Our research published in 2022 showed that Christian grandparents often feel excluded, uninvolved, lack confidence and are uncertain of appropriate boundaries. But when we ask in churches and family settings, everyone thinks that grandparents have *AMAZING* spiritual potential in the lives of the children and young people they encounter. So, we've created these two engaging and practical courses.

Many churches report that they have no children attending regularly, *BUT* they have many grandparents in their congregation. These grandparents have ready-made relationships with their grandchildren. Our **Grandparenting for Faith** discussion groups can help these grandparents to be equipped with tools and ideas to share their faith with their grandchildren. The exciting news is that even if you do not have children attending your church, your church can still be sharing the gospel message with future generations in significant and meaningful ways, through these naturally occurring relationships. Local churches can facilitate grandparents and grandparent-figures to gather together over coffee each week to watch the videos and discuss the ideas together.

It's sad to hear of churches where there are many older generations who are attending church regularly but do not feel able to play an active part in the faith of the children and young people around them. But this can change now..... we have a short 1.5hour course for anyone involved in church leadership. This course can be done on your own, self-paced or in an online group. You'll explore the theological and theoretical principles, lots of practical ideas and also the many considerations needed to help your church to equip and empower older generations in the church. Take the first step and sign up today.

"I'd been seeking how to better share my faith with my grandchildren. This has energised, informed, and hit the spot."

"I loved hearing the stories of how other grandparents have overcome challenges & issues."

(Quotes from some grandparents who recently completed this course).

PEER-LED LIFEGROUPS

A group of grandparents/grandparent-figures can sign up for £30 and organise to meet together weekly to watch the videos and discuss the questions. This works really well over 6-8 weeks. It's really easy to run and is a great way for getting to know others in your church or local area.

FIRST-TIME GRANDPARENTS

Know someone who is becoming a grandparent for the first time?

Encourage them to sign up to do this 6-8 week course live online (Friday lunchtimes from 13th Feb), or on their own, self-paced.

It will equip them with how they can get the foundations in place early in their grandchild's life, and enable them to share Jesus with the children they love most.

Don't miss out!

Join the movement to equip older generations in our churches to support faith in kids and young people in your church.
